

# Philips AD7 Bariatric Carbon Fiber Extension - Cardiac Table

INF-27975

INFAB's AD7 Bariatric Carbon Fiber Extender for the Philips AD7 Standard Cardiac Angio Table widens the table. It allows for a variety of different procedures to be performed on the AD7 Standard Cardiac Angio Table. The extender also has slots on the sides, which allow for patients to be strapped to the table for safety. This table extender is the perfect addition to your Hybrid OR, with its quick setup and takedown procedures allowing your OR to quickly adapt to changing patient needs.
